

BLUE SIDE UP!

The BFC, founded in 1956, meets at Naper Aero Estates (LL10), a private residential airpark in Naperville, Illinois. Monthly meetings are held at the airport in the clubhouse near the South end of the runway on the first Tuesday of every month beginning at 7:30PM. The Club has 45 equity members sharing three planes.

Last Month's Meeting

Attendance & Minutes:

The Business Men's Flying Club held its monthly meeting on Tuesday, December 4th, 2012 at Naper Aero. Chuck began the meeting at 7:30 pm.

Comments and questions on the minutes were solicited but none received. The minutes were accepted as published in the newsletter.

The treasurer presented his summary to the club. The reserves are fully funded. Questions and comments on the report were solicited but none received. The report was accepted as published in the newsletter.

The airplane reports were given and the details are provided below.

Meeting adjourned at 7:52 pm.

Seen on the web:

Here is a video of a decent made by a jump plane after its passengers have departed. Maybe this guy might be just a bit overconfident; what do you think?
http://www.liveleak.com/view?i=20a_1355531018

Looking for extra utility out of your plane? Check this guy out:

Safety

- Beware of Presidential TFR's.
- Watch for stadium TFR's especially Joliet speedway and DeKalb university.
- Tire pressure check is always recommended for all airplanes.
- New Class B Airspace configuration around O'Hare.
- Be careful of FOD from the garbage and other sources.
- Recommend a second before startup walk around.
- Avoid distractions. They cause you to deviate from your normal routine. Stick to your routine and go back a few steps if necessary.
- Please if you must depart right cross wind on 18 or 36, make sure you are well clear of the airport operations area. Left climbing turns over the numbers or mid-field are acceptable.
- If you damage the aircraft, please man up and report it. Your board and airplane captains are not here to judge you or make a mockery out of your situation. We all make mistakes and it can happen to anyone! Our goal will be to handle the situation discretely and efficiently to minimize down time of the aircraft. Only those who need to know will.
- Double check to ensure the tow bar is NOT attached before taxi. Never leave the tow bar attached to the airplane. Do NOT set the tow bar on the wheel pants.

• **Reminder: As members we own 1/45 of these planes. It is inappropriate for any of us to decide what is to be fixed or how. That is up to the chief maintenance officer, airplane captain, and your club officers to decide.**

If you encounter ANY problems, notify the airplane captain immediately! The number is available in the fuel log book.

Guests:**Social:****Aircraft Reports:****N388ES**

1. Attitude indicator was replaced.
2. ELT battery was replaced.
3. Induction filter AD was complied with, oil, and induction filter changed.
4. The new compass card was installed and power was permanently disconnected from the ADF as recommended by the FAA.
5. The nosewheel shimmy problem was reported again.
6. The autopilot still does not beep on disconnect.

N983SP

1. Bird strike on the induction filter, replaced.
2. The winch was fixed by Leibeck? He would like a ride in the right seat sometime as compensation. Anyone willing to accommodate him?

N415RC

1. Beacon light was out, fixed.
2. Mineral oil was replaced.
3. Manifold pressure gauge reads incorrectly and needs re-cal.
4. The heater plug is off center can is unusable. Needs a ferry to Travel Air for repair.
5. The large center hanger door gets stuck.

Membership:

Two people are on the exit list therefore, we have two openings.

Accomplishments:

What's Up...?

Greg VanDenHam created this new format for our newsletter! Many thanks Greg; it really needed a facelift.

Aviation Photos Needed:

What are you flying? Send me a picture for the cover of the newsletter. Club planes count too!

Photo credits:

Dessert/Beverage List:

The BFC refreshment list was created as a way of recognizing special aeronautical achievements. The person scheduled for refreshments should coordinate with the grill master to bring beverages and dessert to the club meeting. If unable to attend, s(he) should arrange with someone else to cover the commitment or pick another time. Please note this is different than grill duty.

This Month's Photo Corner

Clearwater Airpark

Reminders:

- Windshield washing: Please use a CLEAN soft CLOTH. Paper scratches the windshield.
- Don't park at the pumps for extended periods.
- Red BFC compressor available to fill tires.
- Log oil added in the airplane logbook.
- Land on the grass if possible to minimize tire wear.
- Watch your HEAD when moving around under those wings!
- Remember to lean the airplane during Taxi, the engine loads up and you or the next pilot will fail the magneto check.
- Wash off the bugs after your flight so they don't have a chance to weld themselves to the paint. Clean bugs off past the leading edge and look at the flaps. Mud accumulates on them after soft field work. Your saving 10min of work means 30 for the next member.
- 36 is the preferred runway at Naper in calm winds.
- Its winter, don't forget to plug in the planes after your flight.

About Our Organization:

The BFC, founded in 1956, meets at Naper Aero Estates (LL10), a private residential airpark in Naperville, Illinois. Monthly meetings are held at the airport in the clubhouse near the South end of the runway on the first Tuesday of every month beginning at 7:30PM.

The Club has 45 equity members sharing three planes:
